

October 10, 2017

Dear Community Member,

On Thursday, November 9, 2017, the University of Advancing Technology (UAT) Foundation will partner with the Warriors Heart Foundation to host a Veterans' Day Silent Auction Fundraiser for the two foundations.

The UAT Foundation is a scholarship foundation that seeks to locate and deliberately nurture individuals whose talents will make the world stronger through the creation of technology, ethically applied in society. Through scholarships designed to foster the learning of UAT students, the UAT Foundation exists to support the next generation of the change agents our world needs.

The Warriors Heart Foundation seeks to assist military, veterans and first responders in accessing PTSD, alcohol and chemical dependency treatment at Warriors Heart with a mission to provide treatment for those who put their lives on the line for our safety. The WH Foundation works tirelessly to assist those who put their lives on the line for us every day in their time of greatest need.

Your generous contribution will assist the University of Advancing Technology Foundation and the Warriors Heart Foundation in raising and award the funding that is critical to supporting our veterans and first responders into the next stage of their lives. Because both Foundations are 501(c)3 organizations, all donations are tax deductible.

If you have any questions or would like more information on either organization, please do not hesitate to reach out.

Thank you for your support,

Valerie Cimarossa
